

Buyback option for WIDOS machines

As of now, it is possible to order a buyback option when purchasing a machine from WIDOS 4400 up to WIDOS 6100, manual version, with SPA or with CNC.

This buyback option assures a repurchase by the selling dealer.

These are the advantages for you as customer:

1. Investment security, beneficial for projects with an uncertain future since return or further use is possible
2. Exactly calculable, low monthly costs for the project calculation
3. New genuine WIDOS machine with full warranty in up-to-date fabrication
4. Access to well trained service partners during the operating time
5. Less expensive alternative to a long-term rental in case the machine is used for at least 6 months
6. The possibility to get a new machine at a favorable price every 12/24 months. You can further use the reducer inserts.
7. Unlimited option at the end of the redemption time

Within the scope of the buyback option, the seller assures the buyer the redemption of the machine at a fixed amount.

In case of **returning the machine after one year**, **50%** of the original purchase price will be reimbursed.

In case of **returning the machine after two years**, **40%** of the original purchase price will be reimbursed.

The condition for this case is: the repurchase has already been stipulated upon purchase, the machine is complete, fully functioning, cleaned and returned with all tools and documentation. The dealer is to check these conditions.

* At an operational time of 12 resp. 24 months.

from Euro/day*
WIDOS 4900 (OD 90 up to OD 315)

Calculation example:

a WIDOS 4900 at a list price of € only costs you appr. € per day at an operational time of 24 months!
